

# MGARA CERTIFICATION

This form must be submitted monthly to the administrator to certify the accuracy of the 834 and 837 files. The form may also be used to accompany any paper eligibility/claims correspondence to also certify their accuracy.

---

This is sent in conjunction with the form(s)/file(s) dated \_\_\_\_\_ to certify that the individual is eligible as defined in PL 90 and that the reinsurance premium rate level payable to MGARA for that individual has been correctly determined. This also certifies that claims have been properly adjudicated and have been reported accurately.
