## C. Progress of Section 1332 Waiver – General

12. Provide an update on progress made in implementing and/or operating the state's approved 1332 waiver program.

The 2025 year was the MGARA program's 7th year of full operation under the Section 1332 Grant, its 4th year operating based on a retrospective model and its 3rd year servicing the merged individual and small group markets. The program is functioning according to plan with no material implementation or operational issues. We note that due to a series of factors, including MGARA's status quo funding of \$4 per member per month, the addition of the small group market to its reinsurance program without any additional source of funding, the expiration of enhanced premium tax credits and subsequent reduction in federal pass-through funds is gradually reducing MGARA's ability to reduce premiums in the individual and small group markets. Solutions to this funding dynamic are under active consideration in

13. Describe any implementation and/or operational challenges to meet the 1332 statutory guardrails and plans for and results of associated corrective actions. If challenges were described in a prior annual report, only report on changes and/or updates, as appropriate.

None

## D. Progress of Section 1332 Waiver – State-specific

If the state does not have actuals reflecting the full plan year, insert a placeholder (e.g., TBD) and specify in the Comments column when the data will be available. Once final actuals are known, please update the Annual Report.
